

FLORIDA IS A CLOSED PRIMARY STATE

1

WHAT IS A CLOSED PRIMARY STATE?

A closed primary is a type of primary election used to choose candidates who will run in the general election. Florida is one of 14 closed primary states in the country.

2

WHO CAN VOTE IN A CLOSED PRIMARY STATE?

In a Closed Primary State, for partisan office contests, a voter may only vote for candidates of the party in which the voter is registered (F.S. 101.021). The voter's ballot style is determined by the voter's party affiliation at book closing (29-days prior to election day), which is why different ballot styles exist in a primary election.

Voters registered with no party affiliation (NPA) are not eligible to vote for partisan candidates in a primary election unless Universal Primary Contests (UPC)* occurs. Therefore, it is important to indicate your preferred party affiliation at the time you register. If you do not affiliate with a party, you will be registered without party affiliation. All registered voters regardless of party affiliation are entitled to vote for non-partisan candidates and issues. Your party does not affect your ballot for any election other than a Primary Election. In a General Election, all registered voters may vote for any candidate regardless of their party.

3

DEADLINE TO CHANGE YOUR PARTY

All party changes for a primary election must be made by the registration deadline (book closing) which is on the 29th day before each election (F.S. 97.055). If the request is made after the deadline, the change will not take effect until after the election.
